Summary

Computer Science undergraduate with strong proficiency in **C++ and Data Structures & Algorithms**, having solved **500+ problems** on **LeetCode**. Experienced in **arrays, trees, graphs, and dynamic programming**, along with backend development using **Node.js and MongoDB**. Seeking opportunities to apply problem-solving and development skills in **real-world software projects**.

Education

Bachelor of Technology in Computer Science and Engineering	2023-2027
<i>Jaipur Engineering College & Research Centre Foundation, Jaipur</i>	<i>CGPA: 7.79</i>

Senior Secondary (Class XII), RBSE	2023
<i>Shivalik Public Sr. Sec. School, Kota</i>	<i>Percentage: 75.4%</i>

Secondary (Class X), CBSE	2021
<i>Lawrence and Mayo Public School, Kota</i>	<i>Percentage: 89.0%</i>

Skills

Programming Languages: C, C++

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming, Recursion, Greedy Algorithms, Time & Space Complexity

Computer Science Fundamentals: Object-Oriented Programming (C++), Operating Systems (Processes, Threads, Scheduling)

Databases: SQL, MongoDB, Snowflake

Web Technologies: HTML, CSS, JavaScript, Bootstrap, Node.js

Tools & Platforms: Git, GitHub, LeetCode, PowerBI, Tableau.

Projects

LeetSyncGit — (**Automated LeetCode submissions** → **clean GitHub commits**, **zero manual effort**.)

- Automates syncing **LeetCode submissions** to GitHub repositories.
- Extracts problem, code, and metadata directly from **browser DOM in real time**.
- Streamlines version control, tracking progress, and **maintaining a clean coding portfolio**.

Travel N Track — **Location-Based Web Application**

- Built a location-based web application that verifies user presence within a **100m radius** of tourist locations using the **Geolocation API**.
- Implemented **user authentication** and a **leaderboard system** to encourage engagement and competitive participation.
- Developed backend logic using **Node.js and MongoDB** to manage user profiles, location data, and reward points.

Certifications & Achievements

- Fundamentals of Deep Learning by **NVIDIA (March 2026)**
- Salesforce Certified Agentforce Specialist (**October 2025**)
- Completed an **8-week Web Development Training** by Internshala; built hands-on projects using **HTML, CSS, JavaScript, Node.js, MongoDB, and Geolocation APIs**, with a focus on backend logic and real-world features
- Solved **500+ Data Structures and Algorithms problems** across coding platforms
- Earned the **LeetCode 100 Days Badge (2025)** for consistent daily problem solving
- Participant, **Smart India Hackathon (SIH) 2024** – Internal Hackathon (JECRC HackQuest 7.0)
- **Certificate Portfolio:** [Google Drive Link](#)
