PROFESSIONAL SUMMARY

Computer Science undergraduate with strong **problem-solving** and **analytical thinking** skills, demonstrated through 500+ solved coding challenges and hands-on full-stack project development. A **self-motivated** learner with the ability to quickly adapt to emerging technologies, complemented by strong **collaboration, communication**, and a **disciplined** approach to continuous learning and delivering reliable solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering <i>Jaipur Engineering College & Research Centre Foundation, Jaipur</i>	2023–2027 CGPA: 7.79
Senior Secondary School, RBSE <i>Shivalik Public Sr. Sec. School, Kota</i>	2022 – 2023 Percentage: 75.40
Secondary School, CBSE <i>Lawrence and Mayo Public School, Kota</i>	2020 – 2021 Percentage: 89.00

TECHNICAL SKILLS

Languages: C, C++, JavaScript
Frontend: HTML5, CSS3, Bootstrap, EJS
Backend: Node.js, Express.js, REST APIs, Authentication
Databases: MySQL, MongoDB
Tools and Platforms: Git, GitHub, VS Code, Postman
Core Subjects: DSA, OOPs, Database Management System, Operating Systems

PROJECTS

LeetSyncGit - Chrome Extension for Automated LeetCode-GitHub Sync <i>JavaScript, Chrome Extension APIs, GitHub REST API</i>	May 2026 – Jun 2026 GitHub
- Built a JavaScript browser extension to automatically sync LeetCode submissions to GitHub. - Implemented real-time DOM parsing to extract code, problem details, and metadata. - Integrated the GitHub REST API to create structured repositories and maintain an organized history of coding solutions automatically. - Automated Git commits and repository updates, reducing manual effort by 90%.	
Travel N Track - Geolocation-Based Tourism Platform <i>Node.js, MongoDB, HTML, CSS, JavaScript, Bootstrap</i>	Feb 2026 – Apr 2026 Live — GitHub
- Built a tourism promotion platform that uses geolocation-based verification to validate visits to tourist destinations. - Implemented distance-based coordinate validation using stored destination coordinates and awarded points for verified visits. - Built features including Leaderboard, Profile Page, Location Verification, and Destination Management. - Implemented secure User Authentication and integrated MongoDB for persistent storage of users and destination data.	

TRAINING

- Completed the **8-Week Web Development Training** – Internshala and built hands-on projects using **HTML, CSS, JavaScript, Node.js**, and **MongoDB**, focusing on backend development and real-world applications.
- Completed the **Learning C++** – LinkedIn Learning and strengthened fundamentals of **C++, Object-Oriented Programming, STL**, pointers, and memory management.
- Completed the **Deep Learning Workshop** – NVIDIA and gained knowledge of **Neural Networks, Model Training**, and **Deep Learning Applications**.

CERTIFICATIONS & ACHIEVEMENTS

- Solved **500+ Data Structures and Algorithms Problems** across coding platforms, strengthening **problem-solving** and **algorithmic thinking**.
- Earned the **Salesforce Certified Agentforce Specialist** certification, demonstrating knowledge of **AI Agents, Automation Workflows**, and the **Salesforce Ecosystem**.
- Participated in the **Smart India Hackathon (SIH) 2024** Internal Hackathon (JECRC HackQuest 7.0).
- Earned the **LeetCode 100 Days Badge (2025)** for consistent daily coding practice.
